THE BRIGHTEST, FASTEST GROWING NEWSPAPER  
PUBLISHED IN HALIBURTON COUNTY

No. 27

SATURDAY, FEBRUARY 22, 1964

5c PER COPY

**LINDSAY LIONS TOP LEAGUE** — Three of the stalwarts from Haliburton County that play for the Lindsay Lions team are from left to right: Jim Scheffee of Haliburton, Craig Gartshore of Minden, Rick Bain of West Guilford together with coach Gus Bodnar.

## ROYAL CANADIAN LEGION ZONE F4 AT HALIBURTON

The Royal Canadian Legion Cpring Zone Rally will be held at Haliburton at Branch 129 on Sunday, Mar. 15, at 1:30 p.m.

The following branches of the zone, Haliburton, Omeme, Cardiff, Coboconk, Bobcaygeon, Woodville, Brechin, Fencen Falls, Kinmount, Cannington, Beaverton and Lindsay will participate.

All branches are requested to bring their colour parties.

"We are all very interested in seeing the new Legion Hall at Haliburton and will give them our support," stated Zone F4 Commander Ian Scott.

You help others when you help the Red Cross.

## NEED MORE PARKING SPACE AT COUNTY BUILDING — COUNCIL

At a meeting held in the Registry Building, Minden Council directed the clerk to write to the Haliburton County Council and the Ontario Provincial Police expressing the council's recommendation that these two departments consider the purchase of the property owned by Stan Coulter in order to provide parking space for the county building. Council feels that this would help relieve congestion on the village streets. Quite often on the days court or county council are held, cars line the street for a great length in front of the county building and registry office. At one time the Coulter property was suggested by Deputy-Reeve Mark Vasey as a spot for municipal offices. However, the idea was turned down by the council.

## LAWYER ASKS ROAD RIGHTAWAY CHANGED

A Lindsay lawyer approached Lutterworth council at a meeting held in Lutterworth Central School on Wednesday, Feb. 5 to have a road rightaway changed that runs through a portion of land at Moore's Falls. The unused rightaway runs from Highway 35 to Moore's Lake, and there is a home situated on part of it. The property is owned by Mr. Hockley who purchased it about one year ago and is believed to be going to start a cottage development. Mr. Hockley has asked the council to trade the present rightaway for a piece of land further south on Highway 35 running from the highway to Gull River at the edge of his property. In the future Mr. Hockley is contemplating the erection of a bridge to span the river in order to develop some more cottage sites. Council decided to withhold decision on the request until they are able to view the land in question at a later date.

## SNOW REPORTS

From Lands and Forests, for Friday, February 7th.

Following accumulations are reported:

Haliburton — 10" on ground, 6-8" on cottage roofs.

Minden — 12" on ground, 6-8" on cottage roofs.

Gooderham — 15" on ground, 12" on cottage roofs.

Apsley — 14" on ground, 9" on cottage roofs.

In any language the Red Cross means people helping people. It is the symbol of help and hope.

## Haliburton Man's Brush With Death

### DRIVER COLLIDES WITH TRAIN

A well-known Haliburton resident narrowly escaped possible death Monday afternoon, when he was thrown from his panel truck after a collision with a CNR freight train.

Albert Blanchard, an electrician, was taken to Haliburton Red Cross Hospital

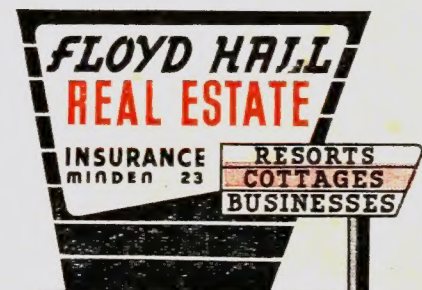

suffering from a broken shoulder, severe cuts around the face, and other undetermined injuries.

The accident happened off the main track, on a siding on the Donald road.

"It was fortunate that he was thrown from the vehicle, and that the train was going slowly," said Mrs. Blanchard.

Police say the vehicle was practically demolished.

# News and Views

from the Minister's Study

The approach of Easter signifies the formation of Communicant classes for those wishing to join the church. This year there is a class being held at Minden each Wednesday after school and 12 young people are taking instruction prior to making a confession of their faith in Jesus Christ on Easter Sunday. A second class is being held each Thursday evening for young people from Car-

narvon and Maple Lake churches with four young folk enrolled for instruction. A little later an Adult Group will be held for all grown-ups wishing to unite with the church on profession of faith or by letter of transfer, and any desiring to join the group are asked to contact me as soon as possible.

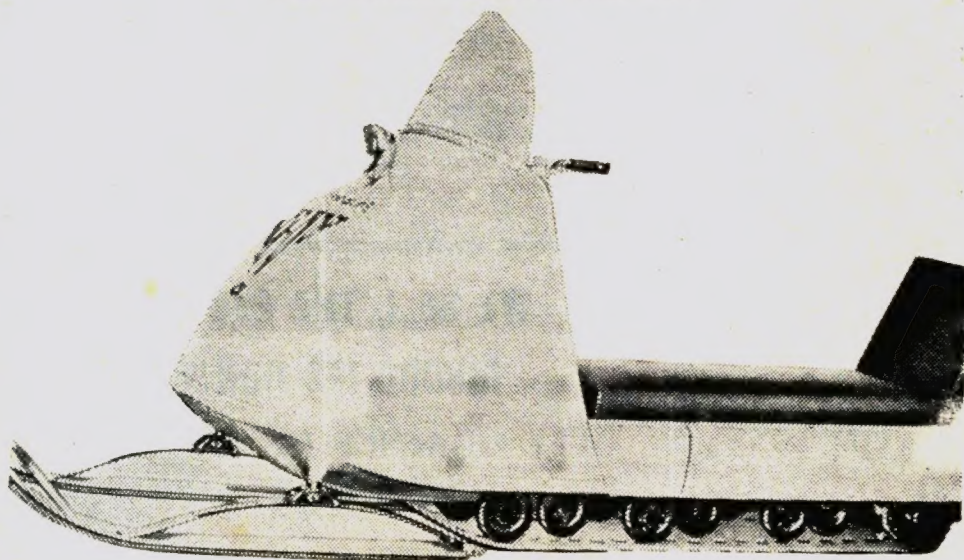

As the convener of Home Missions for Lindsay Presbytery, I was happy to learn at

last week's meeting of Presbytery that our neighboring charge of Coboconk has completed plans for building a new manse this year. They have come to realize that to maintain a consistent ministry a step in the direction of providing their minister with a comfortable home for his family was a must. Although it has been necessary for them to secure some assistance from the Board of Home Missions, the congregations have undertaken to raise ten thousand dollars toward the project.

(DeRocher) ----- 15.40  
Tor.—Reinprecht ----- 17.00  
Penalties: Gartshore.

## MINDEN MINOR HOCKEY

Two Squirt and one Pee-wee game were played at the Minden Recreation Centre on Saturday, Feb. 15th. In the first game Mike Jackson's team defeated Earl Bush's team by a score of 6-3. Lee Bull got four goals for the winners and Bill Jackson got two. Assists went to John Morgan, Paul Fleming and Kim Hewitt with two. Allan Bush potted two goals for the losers, Wayne Johnson got one and Chris Pritchard and Bob Arbuthnot received assists. In the second squirt game Alvin Miscio's team beat Don Campbell's team 5-0. Lee Bull also played in this game to help even the teams up and he notched two goals and two assists. Other goals went to Bev Hicks, Murray Miscio and Tony Miscio. Murray Miscio also got two assist while Tony Miscio got one. In the pee-wee game Andy MacKenzie's team was victorious over Neil Burke's team by a score of 4-2. Dwight Little scored three goals for the winners while Larry Kent got a goal and an assist. Other assists went to Lonnie Hughes and Ray Rivers. For the losers Danny Chambers got two unassisted goals.

## CURRY MOTORS GET

### MINDEN TRUCK TENDER

At a meeting held in the Registry Building, Minden council decided to accept a tender from Curry Motors in Haliburton for a new township truck. The old township truck is to be turned in on the new vehicle and a difference of \$6,555 will be paid. Three other dealers tendered for the vehicle including two from Minden and one other from Haliburton. The trade is subject to approval by the Department of Highways engineer.

## IMPORTANT NOTICE

As Alan R. Capon is frequently out of Minden during the week, persons wishing to order printing or mimeographing or to place want ads in the Minden Progress are asked to telephone BOB BEENY at Minden 206J. GREYSTONE PRESS - Minden and Fenelon Falls

## MINOR HOCKEY

With Bill Payne

There are nine teams playing hockey in the Minden Minor Hockey Association. This represents approximately 100 boys ranging in age from seven years to 14 years.

Although there is a well-organized group behind this organization, it takes money and lots of it to take care of the numerous expenses involved.

If it were not for the Kinsmen Club of Minden who sponsor the entire ice time for league games we would be in trouble.

The Kinsmen this year, as they have done for a number of years, have picked up the tab for ice time for the Minor Hockey Association.

It seems easy to say that an organization pays out money for a project such as this, I wonder how many people stop to think just how many hours of hard work that is done by a great number of Kinsmen in order to earn this money in the first place.

It is a wonderful thing when all this work is done by these men in order to give it away to a good cause.

We in the Minor Hockey Association sincerely appreciate the tremendous help given to us by the Kinsmen and can only say that if you Kinsmen would come to the hockey games and see the excited looks on the youngsters faces you would be proud and have a heart full of satisfaction for the work you have done.

While the ice time is a very important function of hockey, there are another group of people in the community who dressed up the league to make it one of the most colorful leagues I have seen. I am speaking of the sponsors who supplied the uniforms for the boys. Also the necessary protective equipment to play in safety.

Our many thanks goes out to the following persons who wroked very hard for the monies they so generous donated to the boys.

Carnarvon Lumber, Dollo Bros. I.G.A., Prentice Roads, Red and White, Welch's General Store, Dominion Hotel, Frank Welch, Floyd Hall, Crest Hardware, Earl Palmer, Teen Townners, Highlan Rest-

aurant in Haliburton, Austin's Esso Station, Ontario Hydro Employees Union, Local 1000, McNight's Haulage, Jackson's Shell Oil Northland Sales, Dave Stamp's White Rose.

Two people should get further mention, Slim Brandon for his added generosity when ordering uniforms, (I don't know how he stays in business); also Dave Stamp who so generously supplied transportation on several occasions for the players.

After reading this far in the column you might be getting the impression that everything has been taken care of with the organization, ice time to play, uniforms to wear, players to use them, all clicking together. Well, so far you are right; but, there is one item needed to make all this really worthwhile — YOU. That's right, if the parents would only come out to the games, UTOPIA in minor hockey would be realized.

If you want to have the thrill of your life, come on out to the games and see your youngster get that goal or stop a long awaited rush.

You know it is very difficult at times to referee some of the Squirt games because I get carried away with amusement watching some of the little tykes doing everything in their power to swat at the puck.

So won't you come out and join us in enjoying the fun we do. Never again will your boy be this young again and if you miss seeing him at this stage you have lost this enjoyment forever.

There are well over 100 people involved in making minor hockey possible in Minden. That's right, over 100 people.

This column would not be complete if another group in Minden were not recognized. The Minden Rotary Club have been sponsoring Rotary Minor Hockey for a number of years now. Not only do they supply the necessary funds to secure ice time, but they supply the men as well.

The community should be proud of this organization for their wonderful efforts toward the youngsters. Harry Cowan, Harold Morgan, Claude Brown and Mike Jackson are to be congratulated for their efforts toward the youngsters on Friday nights.

There are numerous other fathers that help on Friday nights as well. They may be in the player's boxes, or they may hear that old familiar sound, "Would you tighten my skates, please," or even, "Can I have some money Pop for a drink". These are all the different phases of activity takes place at youngster's hockey games.

So you can see that all that is needed now is the parents on the side lines yelling, "Come on John", or "Get in there and dig, Lee". This would make everything worthwhile completely.

SEE YOU AT THE ARENA!

Minden plays host to Gra-venhurst on March 7th.

## COMING

IT?

CROSS OVER  
THE BRIDGE!

## MUNICIPAL BUILDING SITE MAY NOT BE SUITABLE

Soil tests on the site of the proposed municipal building for Minden taken by E. M. Peto, engineers of Toronto indicate the site might not be a very suitable one for the building.

Gorsline Construction, the contractors excavated a week ago and the hole quickly filled with a foot of water. The engineers said the footings proposed by the architects Stanford and Wilson would not be suitable for this type of ground and that piles would have to be driven if the site is to be used.

It is understood the first test went 66 feet into the ground before reaching solid ground. Council will know the exact cost of the piles within a few days and will then make a decision regarding the work.

The piles necessary could cost some thousands of dollars more and if at a later date further expansion was made to connect the building with the recreation centre, similar expenses would probably be encountered.

## SCOUTING IN 1964 DISCUSSED BY

# The Deputy Chief Scout

Com. L. H. Nicholson

As we enter the New Year all of us in Scouting must turn our thoughts to Boy Scout Week with its link to the Founder's birthday.

I suggest that wherever we find ourselves in the Scout family we look ahead during this particular week, check our plans for the coming year, re-examine our problems and ask ourselves how we may best help our section, our group, our district. Let us all seek an improvement in our contribution to Scouting standards and Scout service.

Those of us who work through the National Executive Committee or at National Headquarters are especially interested in three matters which will be prominent during the year and which we think will be of real significance to all.

In the first place there is our Personal Fitness Program which relates directly to our theme for the week and the year "Fitness through Scouting". With its challenging badges and its fine purpose, we think this feature should attract wide attention and do much good.

Secondly, there is our new magazine, Canadian Boy, the first edition of which appeared in January. On any measure

this publication should be a support to our movement.

Then there is the decision of the National Council to set up a new and separate section for boys in the approximate age bracket of 14 to 17 years and to adjust the present program accordingly. Much remains to be done before this decision can be fully applied, but we must move towards that end as quickly as possible, believing that the new arrangement should be attractive to older Scouts and should encourage more of them to stay with us and round out their Scouting experience.

As to the 1964 Boy Scout Week itself, let us make full use of it to once again focus attention on what Scouting is doing in our country, in our neighborhood and on our street. Let us wear our uniforms and let us tell our story in whatever way may seem most suitable — a winter camp — a craft display — snowshoe races open to all comers — a party for parents and friends — a ham radio hook-up — church attendance as a group certainly. This is our week, let us not neglect it. With well laid plans and some new projects, with our enthusiasm renewed and our purpose clear before us 1964 cannot help but be a good year for the Boy Scouts of Canada.

## EDITORIAL . . .

### THE WELFARE STATE

In these prosperous times there is still a large segment of the population that believes the exacting trials of life must be taken care of by our various forms of government. Some forms of monetary security given us throughout our days is no doubt a necessity, however, there are too many human parasites that spend their while existence living on benefits from relief, welfare and in many cases on pensions that are handed out in what would seem an over anxious manner. In many instances these benefits are justly needed for the survival of an individual or a family, but too often they are received by people that are too lazy to work. Even unemployment insurance that is applied from the federal level is handed out in a way that is questionable, at times, and quite often work is refused by people that would rather draw benefits when these unemployed persons could be used on township projects or possibly be part of a labour crew that could improve the different services that the municipality provides the ratepayers. This could include snow shovelling and street cleaning. Certainly something must be done to restore responsibility and initiative to these laggards before we become in reality a welfare state.

Correspondence for the Minden Progress should be addressed to Box No. 264, Minden.

## THERE'S ONLY ONE WAY . . .

A few days ago, the provincial member of parliament for this riding—Glen R. Hodgson—appealed for more respect for politicians and lamented the fact that they seem to have fallen into undeserved disrepute. The appeal and his observations of the public's attitude towards politicians shows that he is alert to the situation but we venture to say that if he would dig a little deeper, he would discover there is only one way politicians can regain their stature in the public eye and that is by showing a little more concern for the public's welfare.

There is, Mr. Hodgson would discover if he chose to take the trouble, a growing unrest among the people about the way their affairs are being handled at both the federal and provincial level. He would find out that the majority of people he talked with don't hold either of the old line parties in very high regard—many would tell him frankly that they think they're "both tarred with the same brush". They would tell him that income taxes on small earnings are out of all proportion to the wage earner's ability to pay; that the special privilege taken for themselves by members of parliament for income tax exemption purposes is resented by those who do not enjoy it; that the federal government's (both old parties) failure to act on the Glassco Report and effect economies, represents a breach of public trust; that members of parliament are standing idly by while departments are wasting the public's money flagrantly and showing no willingness to cut back (there are glaring examples in our own Victoria-Haliburton riding); that until members of parliament really get down to earth and show the people they are interested in their welfare and not in gouging the last dollar out of them to indulge in extravagances that the taxpayers cannot and do not want to afford, they needn't expect to be held in very high regard.

They would also likely tell Mr. Hodgson that he has a wonderful opportunity now to make himself heard—to go against party, if necessary, to make his point; to really take up the cause of the common man in the legislature and not swing on the gate that has the most oil. If he does take this kind of action—if he does show the people of his constituency that he isn't afraid to "call a spade a spade" and fight conformity for conformity's sake, or even political expediency, then he need have no fears as to the degree of respect in which he will be held. He may never become leader of the party's popularity contest but he will be "top dog" in his own riding.

## LUTTERWORTH COUNCIL

## SEEKS BUILDING AND

## SANITARY INSPECTOR

At a meeting held recently Lutterworth council decided to hire a sanitary and building inspector to enforce a by-law passed in 1956. Although the bylaw has been in effect for seven years the council has done little to make sure that residents comply with the by-law. The price of building permits are to be increased and there is to be a fee for inspection of sanitary facilities installed by residents. A councillor told the Minden Progress that the bylaw will be strictly enforced.

## SPORTS

WITH BOB BEENEY

Congratulations are in order for the Lindsay Lions who won their league championship by a one-point margin. The interest by a large group of Minden hockey supporters is due to the good play of the local boys playing for the Lions. Bob Normile, who hauls a couple of players from Minden to Lindsay for each game and practice has been criticized by some people for taking the boys out of town to play when the Minden Monarchs could certainly use them at home in Intermediate "C" action. However, this is a narrow approach to take since I don't think anyone will argue the point that not too much is learned by a boy playing in intermediate hockey. This type of hockey is for fellows that are over the hill or else for guys that aren't capable of going much further in the sport. For a boy to learn the finer points of the game he must have good coaching and that is exactly what these fellows are getting under Gus Bodnar. Too many lads have lost their chance to become better players because they stayed in Minden playing intermediate instead of playing good juvenile or junior hockey.

Speaking about hockey, the Gravenhurst Minor Hockey Association will be in town to play games with teams from the association here. At the time of writing the exact date hasn't been set but it is expected to be in the first part of March. Ralph Hussey intends to supply a lunch for the visitors so I imagine any help in that department would be really welcome.

Rumor has it that in the not too distant future there will be a clear distinction between the recreation committee and an arena board. It is expected that the recreational committee which is appointed by council will take care of all recreation in the township of Anson, Hindon and Minden. The arena board would be responsible to the recreation commission in regards to the operation of the community centre. At the present time the township's recreational facilities are practically nil. No doubt when the complete reincarnation of the community centre is finished there will be ample opportunity for the recreation committee to provide recreational facilities for the community. I would imagine that when the front portion of the arena is torn down and the new structure erected the auditorium could be used for basketball, volleyball and even floor hockey. The youth in our community deserve a better recreational program than we have and with Bill Payne and the rest of the committee working towards this goal we can expect more results in the next few years than we have ever had before.

## TENDERS WANTED

Tenders will be received up to Monday, March 2nd, for fire, extended coverage and malicious damage insurance on the new municipal building. This insurance to provide coverage at the time of construction and should be based on the completed value of \$50,000.00

G. B. BIBBY, Clerk-Treas.,  
The Municipality of Anson,  
Hindon and Minden

## AROUND THE SQUARE

The Canadian Broadcasting Corporation's decision to turn radio station CJBC in Toronto from an English speaking station to a French speaking station has brought criticism from many quarters. It seems rather strange that most of the criticism should come from Toronto where there are many other capable stations. The people in this area, and other similar districts, you would think should be more concerned, when at certain times of the day; when other stations fade out CJBC comes through with the strongest sound signal. It's just another case where the minority is appealed at the majority's expense.

Don James, local salesman for Cable T.V. is certainly persistent. Last week he broke down a couple of fellows who insisted that they got good reception on their television sets with their present aerials. You just can't beat the combination of a good salesman and a good product. Fifty families are hooked up to Bob Bishop's CATV.

ACCENTS—Have you ever noticed the different types of accents that people have? I don't necessarily mean individuals from other nations but people that live in the same area. Wealth, whether it is in importance or in monetary value, often can change not only the frequency tone of a person's voice, but the loudness of the tone. Usually a twang that is very difficult to describe is added to the words spoken; although we feel it sounds as if the person is trying to speak with their mouth filled with a dozen marshmallows — only to find them suddenly removed. The individual continues to talk with a loud oval tone as if the emptiness is a new found pleasure. Listen to some of your friends and neighbors.

# News and Views

from the Minister's Study

The last column of "News and Views" got swamped beneath a flood of annual congregational meetings. While these tend to be a routine reporting of the progress of various groups and organizations within the congregation, a few noteworthy things did emerge. At Minden, the congregation's givings to the Missionary and Maintenance Fund of the United Church were tripled over the previous year. This was a most remarkable achievement. It had been expected that with the completion of our Building Fund campaign, some increase could be expected towards the wider work of the church, but scarcely anything like this had been anticipated. The most encouraging part was that almost twice as many people as before shared in the effort. A wise minister friend of many years experience once remarked that a congregation that was growing in its awareness of responsibility to the Mission of the Church was also awake to its responsibility within the community. It is our hope that we may continue to grow this way.

The reports at Carnarvon showed that all organizations were taking a share in the Building Campaign there, and at the same time were maintaining the standards of the rest of their program as previously. Over the next five years, the congregation will endeavour to clear off the remaining \$6,000 owing on the new Christian Education Building. Maple Lake Church showed a generally stronger report this year, having redecorated the sanctuary, added a new kitchen and plan to supplement a memorial gift to buy a new organ this spring.

The greatest weakness of the annual meeting is its emphasis on last year's accomplishments and failure to plan for the coming year's activity. Some very searching questions about the purpose and aims of the church were raised. Some were answered, but far too many were not. One significant step taken at

Minden was to raise the number of elders from ten to at least fifteen, with another congregational meeting to be called soon to elect an additional five members to the Session.

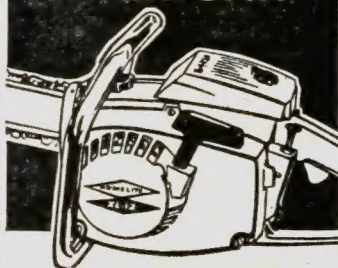

The approach of Easter signals the formation of communicant classes for those wishing to join the church. Classes are being held at Minden, this next week on Friday at 4:15 in the church study and after that on Wednesdays at the same time. Any young people of the Minden congregation wishing to join the church this Easter are invited to come along to the class on Friday afternoon. Another class of communicants for young people of Carnarvon and Maple Lake congregations is also being held and any interested are asked to contact me about time and place. A little later an Adult Group will be formed and those wishing to unite with the Church by a profession of faith or a letter of transfer are asked to let me know as soon as possible.

We are very happy to learn that the Coboconk pastoral charge has completed plans for building a new Manse within the next year. They have come to know that to maintain a consistent ministry a step in the direction of providing a comfortable home was a must. Although it has been necessary for them to secure assistance from the Board of Home Missions, the congregations have undertaken to raise ten thousand dollars towards the project themselves.

In a Study Group on "The Word and the Way", a book on the basic beliefs of our church, the question was raised as to how great was the knowledge of people about the beliefs of their church. Generally, people have more knowledge than they are given credit for having, but occasionally one gets quite a surprise. Recently I called on a member of the congregation in hospital in the city. When I found I had left my New

Testament at home I asked the nurse on duty if I could borrow a Bible. Quite confused, she asked me what a Bible was. It reminded me of the Sunday school teacher who finished a series of lessons on the Book of Genesis with an oral test. Her first question: "Who was the first man?" brought a little boy to his feet to answer, "Hoss!" The teacher was very shocked at how little she had gotten across and said: "You should know the first man was Adam!" The youngster scratched his head and drawled, "Well, I knew it was ONE of the Cartwrights!"

## W. A. KAYE ELECTED

### CPA PRESIDENT

W. A. Kaye of Haliburton was recently elected president of the Canadian Prefab. Association.

The Canadian Prefab. Association is comprised of the country's leading manufacturers of prefabricated homes, summer cottages and garages. The primary aims of this organization are to inform the public of the advantages of this modern method of building and to protect the consumer by agreeing to set and maintain proper standards of construction and ethical customer dealing, which must be adhered to by all member companies.

Mr. Kaye is the designer of the well-known K-BUILT Vertical plank wall panels which are produced in the W. A. Kaye Enterprises factory at Donald, Ontario. He is to be congratulated on this expression of respect and confidence by his associates and competitors in the prefab. industry.

## HEAD- ON CRASH

Mrs. W. Deacon of Haliburton is in satisfactory condition in Lindsay's Ross Memorial Hospital following a head-on crash near West Guilford last Saturday. Mrs. Deacon, who suffered a fractured hip and internal injuries was a passenger in a car driven by her 58-year-old husband. Driver of the other car was Casey Sommerville of RR 1, Haliburton. Damage is estimated by the police at about \$950.

## OVERWEIGHT?

Most lose around 15 to 20 lbs. first 3 or 4 weeks. Helps make you healthier — seldom hungry. Costs about 60c per week. Buy this item at drug store. Diet sent for \$1.00. Clare's Enterprises, Lot 1, Con. A, Minden, Ont.

## CHIROPODIST

### M. E. LOCKE

CHIROPODIST

Will give treatment for all kinds of foot troubles,

By the time you read this column, Boy Scout Week in Canada will be about over.

In order to celebrate Boy Scout Week in Minden, we are having a special church service at the Anglican Church on Sunday, February 23rd at 7:00 p.m.

Rev. Dymond has kindly offered to put on a service for the boys and their parents. Also every one connected or interested in the Scout movement. We hope to see a large turnout to take advantage of Rev. Dymond's generosity and

memory of the wonderful man Lord Baden Powell who made Scouting a reality.

### CUBBING

For the first time in the Cub Pack we have all the boys invested. Congratulations are in order to Fred Cox, Martin Bacon and Wayne Moxam on earning the right to become a Wolf Cub. We were pleased to have as our guests that night, Spike Moxam and Albert Cox who watched the ceremonies and the program. Martin

Scoutmaster appreciates the work you are doing on behalf of his troop.

The sun must have shone for a day or two lately. I overheard someone talking about a weekend camp already. The Scouts will be having their annual camp on the 24th of May weekend and I hope that the weather is a lot kinder to them this year than last. Last year the wind and rain was so bad that their camp had to be cancelled and there were a lot of disappointed boys around town. Here's to good weather to you fellows.

Then there's the story about who was going to be the cook at camp. It seems that no one wanted to do the cooking and they ended up drawing straws. Now the idea was that the first boy who complained about the cooking was to take over the chore. After a few days, the boy who was cooking got tired of doing so, he fell upon a plan whereby he would throw the garbage into the stew and hoped that someone would complain. Well after the meal was over, the cook looked around to see if anyone was going to complain, and just now a fellow stood up with a pained look on his face and exclaimed, "That stew tasted like garbage — but it was good though."

## Scouting Corner

with BILL PAYNE

sincere interest in the youngsters.

The group committee should be in attendance as well as the members of the Rotary Club who sponsor the Scout movement in Minden.

So let's see as many as possible out to Church on Sunday, February 23. St. Paul's Anglican is the place, 7:00 p.m. is the time, Rev. Dymond conducting the service.

On Sunday, March 1, 1964, the Scoutmaster Don Berry and myself will be attending Lady of Fatima Catholic Church for the 11 a.m. mass. Anyone interested in attending with us would be more than welcome. Contact your Scoutmaster or your Cubmaster and we will be pleased to have you come with us.

On Monday, February 24, 1964, our annual Father and Son banquet will be held at the United Church in Minden. Supper is at 6:30 p.m. so plan to be there on time.

This year the Rotary Club has consented to have us with them at their meeting so we might enjoy fellowship together.

Tickets for the supper can be purchased at the door with the prices being as follows: Fathers — \$1.50, Scouts — \$1.50 and Cubs — \$1.25. Please let the Scoutmaster or the Cubmaster know as soon as possible of your intention to attend to allow the lovely ladies to prepare for us.

The boys have been wearing their uniforms all week to school to indicate that this is Boy Scout Week and in

Bacon had his younger brother with him and we hope to have him in the pack some day.

I understand that Jim Elder's young lad will be starting Cubs. We would welcome a few more boys if they are eight years of age and wish to start Cubs.

If your bed sheets are being torn up into long thin strips these days and you find that your arm is tied up in bandages lately, it is only because the Scouts are having a course in first aid.

Ralph Young is conducting a First Aid course for the Scouts and if the boys pay attention, they should be well equipped to render first aid to the needy. Ralph is well qualified to instruct the boys as well, as other adult groups. He has successfully passed his instructors course and well understands the fundamentals of first aid.

A tip of the old Hatlo to you Ralph for your interest in the boys, I am sure that the

# WARP and WOOF

Here's hoping that anyone reading last issue's mixed up Warp and Woof, won't accuse us of being in on the birthday celebration. By the looks of things, a good time was had by all . . . even the gremlins were into the sauce!

Are you watching the stars this month? Two of the brightest planets, Venus and Jupiter are to be seen in the western sky. They are moving up among the stars throughout the month, and each evening they move down toward the horizon. Venus, the brightest planet, travels much farther in 23 days than Jupiter does in 28, Venus moves in its orbit at 22 miles a second, while Jupiter goes only eight miles a second, Venus catches Jupiter and passes it on Feb. 28. At this time the two planets will be only 1.7 degrees apart with Venus to the north or right. On the evenings of 27 and 28th, the two planets will be a striking sight so close together in the sky. And the full moon will be rising in the east just as the sun sets. We note that Leo has come up in the east, which means spring is around the corner. We noticed the new moon, with the old moon in its arms, the other night flanked by Venus and Jupiter, the three riding low in the pale yellow glow of the early evening western horizon. Take the children out and acquaint them with the glory of the stars . . . especially in February.

From "The Pretty Girls Club" of 1911.

Instructions for all kinds of exercises . . . for indigestion, for uneven shoulders, for bowed back, even exercises for the liver . . . and are you overweight? Here's a reducing recipe: Epsom Salt and Lemon Reduction Treatment.

Dissolve one pound of epsom salts in one quart of rain water. Shave fine three bars of white soap and dissolve in one quart of boiling rain water. When partially cool, beat in the epsom salt solution. Now add two more quarts of water and it is ready for use. At night rub the preparation on such parts of the body you wish to reduce, and let it dry it. When morning comes wash

it off. Continue the use of the fat reducer until desired results are obtained. Also take juice of half a lemon in cup of hot water, three quarters of an hour before breakfast. The average reduction in weight is two pounds every week?

We have many more beauty hints such as, how to bleach a dirty neck, reduce a big nose, and bring the glow of health to pale cheeks by artificial means. Advice to the lovelorn too, circa 1911.

## The Wisdom of Confucius

Confucius said: "By looking at a man's faults, you know the man's character."

Confucius taught 4 things: Literature, personal conduct, being one's true self and honesty in social relationships.

Confucius denounced or tried to avoid completely four things: arbitrariness of opinion, dogmatism, narrow-mindedness and egotism.

Confucius was gentle but dignified, austere yet not harsh, polite and completely at ease.

He's not the same Confucius you've heard about?

## Old Welsh Door Verse

Hail Guest! We ask not what thou art;  
If FRIEND, we greet thee hand and heart;  
If STRANGER, such no longer be;  
If FOE, our love shall conquer thee.

They Say: There's nothing wrong with the younger generation that another younger generation won't cure.

A man is usually about average between what one woman thinks she got and another woman thinks she missed.

Give the neighbors kids an inch and they'll take a yard.

Fifty years ago the girls

never thought of doing the things they do today. That's why they didn't do them.

Recovering from an operation, a patient asked the doctor, "Why are all the blinds drawn?" The doctor replied, "Well, there's a fire across the street, and I didn't want you to wake up and think the operation was a failure!"

We are almost afraid to put in a recipe in case it gets scrambled! However, try these Little Currant Scones, close kin to "sweetie skons" . . . the Scottish breakfast scone containing dried fruit.

Preheat oven to 425 degrees (hot). Grease baking sheet. In a mixing bowl, combine two cups of once sifted all-purpose flour (or two and a third cups of once-sifted pastry flour), four teaspoons baking powder, one teasp. salt, quarter teasp. nutmeg. Cut in a third of a cup of chilled butter or margarine until mixture resembles cornmeal. Stir in half cup of currants. Then blend together two well-beaten eggs and a third of a cup of milk and add to dry ingredients, blending lightly with a fork until dough leaves side of bowl. Turn out on lightly floured board and knead about 10 seconds, divide into three equal portions. Shape each into smooth ball, then pat or roll out into a circle about half inch thick. Brush the top with soft butter or margarine. Cut each circle into four triangular pieces. Bake about 15 to 18 minutes 'til tops are lightly browned. Best served warm with butter or other spread. Makes a dozen scones.

You help others when you help the Red Cross. The canvasser who calls at your door is a volunteer.

## AN IMPRESSIVE RECORD

In more than a thousand communities across Canada, women of all ages work together under the Women's Work Committee of the Canadian Red Cross to produce more than 325,000 articles for disaster relief every year.

In numerous homes, Red Cross Workrooms, churches and halls, these devoted volunteers knit and sew the essential items of clothing and bedding so necessary for the preservation of human life in a disaster area.

When disaster strikes, the Canadian Red Cross is able to answer the call for help because these women are so reliable. They work steadily and faithfully during the year, and as a result, an emergency supply of relief clothing and bedding is always in readiness

the rate of about six million per year and result in a saving for the day that it is needed in a hurry. There is always an emergency supply on hand. As soon as the supply has been depleted by an urgent call for help from a disaster area, it is only a short time before a reserve is built up once more in readiness for the next appeal.

In addition to the emergency relief supplies held here in Canada, the Canadian Red Cross stores supplies in the warehouses of the League of Red Cross Societies in Switzerland and in France at the ports of Le Havre and Marseilles. Storage in these three depots facilitates a quick response to calls for help in Europe, Africa and the Middle East.

The Women's Work Committee also supplies the Red Cross Blood Transfusion Service with gauze swabs and wipes. These are produced at

per year and result in a saving to the Red Cross of about \$36,000.

The ladies of the Women's Work Committee of the Canadian Red Cross Society have worked hard. An impressive 24-year record shows that they produced 39,000,000 articles of clothing and bedding for disaster and war relief and 71,000,000 dressings for the Blood Transfusion Service.

These figures represent a phenomenal amount of work, which, if not performed by volunteers would have cost us at least three times as much money.

The volunteer women of the Red Cross Women's Work Committee come from all walks of life. Their skills help to make our dollar go farther.

Most of us have neither the time nor the ability to knit and sew for the Red Cross. We can, however, share in this needed work by giving our dollars to help purchase the raw materials so that the Red Cross can continue to supply the needs of disaster victims the world over.

March is Red Cross Month in Canada. Give generously when the Red Cross canvasser calls on you.

## RANGER SPEAKS

### AT ROTARY

Rotary meeting of February 9th had a better than average attendance with the president in charge. The guest speaker was Mr. Mac McLean of the Forest Ranger School who was introduced by Rotarian John Fergus. Mr. McLean spoke on various ways and means of keeping land covered with plants and trees stressing in particular the planting of birch which is one of our most valuable trees and perhaps the most difficult to reproduce. Mr. McLean was thanked by Rotarian Reg. Booth. The meeting of February 17th could have had better attendance. President Fred introduced the newest member Mr. Clifford Pollard. Rotarian Robert Herlihey followed with a well defined explanation of what Rotary means and what this club has done in the community since its formation in 1947. Quimby Hess introduced the guest speaker Mr. Cecil Irwin, who presented some very interesting slide pictures of his recent world trip. The pictures shown were all of the African part of his tour of the wild animal and bird life of park land in South Africa and were very informative. Also shown were many shots of flowering shrubs and trees plus the primitive methods of field cultivation. Cecil was thanked by Rotarian Joe Dollo. —Vinton Loucks

#### BOWRON BOYS BUMP

Icy road conditions are believed to have been the cause of a minor two-car accident near Minden on Monday, Feb. 10.

Police say cars driven by Kenneth Bowron, of RR 2, Kinmount and Paul Bowron, of RR 1, Kinmount, collided on a narrow side road doing about \$200 total damage. They were uninjured.

More than 90 per cent of the work done by our Canadian Red Cross Society is performed by volunteer men, women and young people from all walks of life.

## BLAIRHAMPTON

### HOME BURNS

#### Six Children at School

A mother of six children ran over a mile to a neighbor's house to phone the Minden fire brigade when her house at Blairhampton was ablaze Tuesday, Feb. 11. Her six children, at school at the time, arrived home later to find their house burned to the ground.

Mrs. Alfred (Bernice) Miscio discovered the blaze at about 2 p.m. and ran to the home of Harold Rowden, a relative, who had a telephone. Minden volunteer brigade answered the call immediately but were hampered by a lack of water. The one-storey frame house and its contents were destroyed causing an estimated \$7,500 loss.

Mrs. Miscio was alone in the house at the time of the fire, her children were at school and her husband out. No injuries were sustained although the firemen thought Mrs. Miscio was still in the house when they first arrived on the scene. She was, however, safe at a neighbor's home.

It is understood that the Miscio's had some insurance on the property. The family is staying at an empty nearby house.

## MINDEN ASKS FOR

### \$79,942.24 ROAD GRANT

At a council meeting held on Wednesday, Feb. 12 Minden council decided to apply to the Ontario Department of Highways for the grant for 1963 expenditures for construction and maintenance of roads in the amount of \$79,942.24. The clerk was also instructed to continue membership in the Ontario Good Roads Association for 1964.

### DYSART AIRSTRIP

#### UNDER STUDY

Dysart Municipal Council have been discussing the feasibility of establishing a municipal airstrip at Haliburton. W. A. Kaye has a strip of property considered suitable for the purpose and is reported to have indicated to council his willingness to lease the property to the municipality.

Dysart clerk was instructed to write to the Department of Transport to ascertain what the township might obtain in the way of subsidies should the municipality decide to proceed in the matter.

Every hour of every day in Canada, someone receives a free blood transfusion.

## CAN'T SLEEP OR EAT,

### FATHER TELLS COURT

A Blairhampton man who recently lost his small son through a shooting accident told a Lindsay court that he had not slept or eaten since the accident and had been drinking the night he was picked up for drunk driving. Elwood Johnston of Blairhampton was fined \$200 and costs on a reduced charge of ability impaired.

The magistrate told the accused that although he sympathized with him, it did not give him the right to jeopardize others on the highway and advised him to stay away from liquor.

Crown witness Henry Davidson told of following a truck, which "weaved from side to side" and had poor lighting on Highway 7 near Omeme.

He had pulled into a service station and notified Chief Constable J. Whetham who took off in pursuit of the vehicle.

The constable said he had found the truck turning around in the village to head back the way it had come.

"I was forced to mount the curb to avoid being hit," said the officer, "and when I stopped the accused, he smelled strongly of liquor and stag-

gered." He said he also found a part bottle of whisky on the seat of the vehicle and a full one under the seat.

Mr. Johnston told the court that a few days before he had placed a loaded gun in his truck expecting to shoot a wolf he had seen earlier. His two small boys had found it, he said, and one of them was fatally wounded. He said this had caused him to go off food and to drink.

"I understand that you were placed on the interdicted list before this unfortunate incident," remarked the Crown attorney.

### CARS COLLIDE

Damage of over \$700 was caused Sunday around noon on the Kenisis Lake Road north of Haliburton when two Toronto drivers collided owing to the narrow slippery road.

Const. A. H. Brooks of the Minden detachment said that the drivers were Arnold Stankevitch and Dr. Arnold Andrews.

Through the Red Cross your help does so much for so many.
